dareels

Design, art & sustainability

We explore uniqueness and exclusivity, because each house is unique. Our process craft is perfectly imperfect. The irregularities and the natural beauty of the materials give a special character to our timeless designs. We are engaged with sustainability. That's why we use noble materials and reclaimed wood.
We want to return to the origin, to simplicity, to reinvent the environment in which we live.

Exploramos la singularidad y la exclusividad, porque cada casa es única. Nuestro proceso artesanal es perfectamente imperfecto. Las irregularidades y la belleza natural de los materiales dan un carácter especial a nuestros diseños atemporales. Estamos comprometidos con la sostenibilidad. Por eso, utilizamos materiales nobles y madera recuperada. Queremos volver al origen, a la simplicidad, para reinventar el entorno en el que vivimos.

Uncontrolled logging is still one of the major problems of our time. The mass production system creates low-quality products and focuses on consumption, leaving sustainability completely aside. A lot of materials that could be recycled or reused are discarded and an increasing need to use new raw materials is created.

Wood, and especially teak, is ideal for recycling: not only it maintains its qualities with the years, but also enhances them with the pass of time.

La tala descontrolada sigue siendo un gran problema de nuestro tiempo. El sistema de fabricación en masa crea artículos de baja calidad y centra sus objetivos en el consumo, olvidando la sostenibilidad. De esta forma, se desechan muchos materiales perfectamente reciclables, y se crea cada vez mayor necesidad de explotación de nuevas materias primas.

La madera, y especialmente la teca, es un material que invita a ser reciclado, ya que no solo mantiene sus cualidades con el tiempo, sino que se acentúan aún más.utilizamos materiales nobles y madera recuperada. Queremos volver al origen, a la simplicidad, para reinventar el entorno en el que vivimos.

Sustainable furniture

Our collection features reclaimed teak wood products.

By taking care of every detail of the process, we transform the natural and disused teak wood, and give it a second life, so that you can have it wherever you want.

Nuestro catálogo está protagonizado por productos de madera de teca recuperada.

Cuidando cada detalle del proceso, transformamos este material natural y en desuso, y le damos una segunda y larga vida en forma de mueble, para que lo puedas tener donde tú quieras.

The Chopin collection is characterized by being upholstered with olefin, a fabric made from recycled yarn, certified by the Global Recycled Standard. It is a 100% sustainable material whose preparation does not consume water, thus protecting our environment. In addition, the pigments used to dye the fabric do not contain lead.

La colección Chopin se caracteriza por estar tapizada con olfeína, un tejido hecho de hilo reciclado, certificado por el Global Recycled Standard. Es un material 100% sostenible cuya confección no consume agua, lo cual protege nuestro medio ambiente. Además, los pigmentos utilizados para tintar el tejido no contienen plomo.

Each piece is unique

Through the art of handcraft, we turn wood into one of a kind pieces with a story to tell. Through crafts we create furniture made entirely by hand with different finishes, and hand woven fabrics with special attention to detail.

El arte del trabajo manual que empleamos convierte a nuestras piezas en artículos de gran valor, únicos en el mundo y con una historia que contar. A través de la artesanía creamos muebles fabricados completamente a mano con distintos acabados, y tejidos trenzados manualmente con una especial atención al detalle.
