

- ☐ Read all the explanations before assembling.
- ☐ Do not throw away the packing material before the assembling process is done.
- ☐ Assembly by two or more adults is recommended.

HOW TO ASSEMBLY

- 1 Screw the metal connector plate onto the side of the module, using the included screws and aligning the elongated slot toward the edge. Make sure the plate is straight and firmly secured.
- 2 Align it so the connector plate meets the side of the second module, and use the screws through the slots to fix it in place. Tighten until both modules are securely joined with no gaps.

- ☐ When placing the body on the floor for the assembly, make sure that there is nothing on the floor. Spread out some papers (e.g. newspaper) for covering the floor to avoid scratches on the surface of the body.
- ☐ There is a possibility of accident and damage if you raise the product by the edge of the leg as center point, so please lift and then raise it up.
- ☐ When moving the product, please lift and move it without pulling.
- ☐ Because the product is quite heavy, please be careful when raising or moving the product
